

SUSTAINABILITY CULTURAL INDICATORS PROGRAM (SCIP)

2018

Measuring sustainability awareness & behaviors at the University of Michigan (U-M)

Using results from the SCIP survey, each ring below represents a top cultural indicator score of 10 for a range of sustainability knowledge, behavior, and disposition items at U-M. The number inside the ring represents how the campus community did in reaching those goals and changes since 2015 when the survey was last administered.

Can you see where **YOU** helped to close the gap in campus sustainability progress on campus?
