Sustainability Education & Research Resources

The Graham Sustainability Institute engages, empowers, and supports faculty and students from all U-M units, and integrates this talent with external stakeholders to foster collaborative sustainability solutions at all scales.

See below for opportunities to engage with us across research, education, and campus programs.

**RESEARCH**

Emerging Opportunities (interdisciplinary faculty teams collaborating to solve real-world problems)

Water Center (science supporting Great Lakes and estuary restoration and protection efforts)

Climate Center (locally relevant information on impacts, vulnerabilities, and adaptation strategies)

Sustainability Experts Database (make sure you’re listed among the 800+)

Michigan Journal of Sustainability (translating science for practitioners and policymakers)

**EDUCATION**

Dow Sustainability Fellows Program (spans masters, doctoral, postdocs, distinguished awards)

Undergraduate Sustainability Scholars (campus-wide sustainability honors program)

Sustainability Course Listings (let us know if we’re missing yours)

**CAMPUS**

Planet Blue Ambassadors Certification (learn about U-M campus goals and get certified)

The Sustainability Cultural Indicators Program (SCIP) provides a wealth of information and data regarding the sustainability knowledge, attitudes and behaviors of U-M faculty, staff and students.
